CNFAP ACTIVITY REPORT (France)
IAA-Europe General Assembly - Dublin
September 14th 2017

One of today's CNFAP main objectives is to be more attentive to our artists so that they can fit into the current artistic world.

Around Ana Sartori our president for the second year, and with some new elected representatives, we continued the implementation and organization of the projects of administrative restructuring, artistic research and promotion of our artists started in 2016.

- ◉ Use of new technologies and social networks to improve our visibility: Active Facebook page, new logo and new website operational by the end of 2017.
- ◉ Computerized accounting, set up for the General Assembly of the CNFAP of December 2016, is now fully operational
- ◉ WORLD ART DAY: Ana Sartori has set up a partnership with the President of the Photographic Federation of France (member of FIAP), which, through a network of 25 regions, 550 affiliated clubs, with 9,500 photographers in France, will organize and revitalize each year number of animations related to the World Art Day site of the AIAP
- ◉ A space for reflection on art, its involvement with other disciplines such as philosophy, sociology, the human sciences and its relationship to the human, has been organized.
 - A first partnership with the IPC (Free Faculties of Philosophy and Psychology) started consisting of conferences-meetings on art and philosophy.
 - Other partnerships are under negotiation for 2018.
- ◉ CNFAP launches its "CNFAP Creation Award".

The objective is to broaden and affirm our existence as a group of artists, to contribute to the diffusion of artistic creation and to provide assistance to artists.

A call for projects, with no age limit, will be launched in France, in the fourth quarter of 2017 for the creation of a work. A jury composed for the occasion will select one of the projects. This prize will help an artist to finance part or all of the creation of a work that the CNFAP will present at an exhibition.
- ◉ We are already preparing the year 2018, which should be rich in exhibitions and international partnerships.
 - Continuing the "DIALOGUES" exchange program, an agreement was reached for the return of the PARIS-BRATISLAVA exhibition to be held in Bratislava from April 9 to 25, 2018 (30 French artists and 30 Slovak artists).
 - Exhibition at the castle of Tourelles in Plessis-Trevis in France to be held in the fall of 2018.
- ◉ We continue our contacts with the museums for free access with the CNFAP card.

As a conclusion, the work done this year has enabled to finalize many projects related to the administrative and artistic organization. This will allow us to dedicate ourselves more fully to the promotion of our association and to the promotion and support of our artists in 2018.
