What does it mean to be an artist in a rural context? What models of cultural practices are emerging in non-urban territories? What are the necessities of cultural workers operating beyond the metropolis? What kind of national, regional and European policies are needed to support artistic practices in rural areas? Culture Crops will showcase the best practice examples from the region mixing them with similar projects coming from all over Europe in order to create a constructive exchange of ideas and to provide space for cross-border collaborations. It will bring different perspectives from arts, heritage, research, politics and economics to explore possible cross-disciplinary answers.
